# A Journey to a Religious Cuisine

Halal suitable ingredients or products are to be manufactured or prepared in such a way that it adheres to the dietary laws of Islamic values.

The word Halal literally means 'the permissible' or the 'lawful'

Muslims have been applying this mandatory diet for over a millennia

This ancient diet still applies in today's world as we embrace a new era of technology, food safety, and regulations

Our team of experts are specialized and familiar with the requirements of Halal suitable foods, beverages, and goods. A Halal certification is the best outcome for a company to covers these requirements globally

# A Journey to food safety: Halal Certification

Halal Quality Control offers a wide range of exceptional and exclusive services to companies based in the European continent.  
As a prime player in this certification field since the last century, Halal Quality Control aims to help identify the gaps and provide the solution

Halal Quality Control aims to assist its customers on their Halal certification journey and to help them realize a new way of trading and exploring the world as not known before.

By obtaining Halal certification, you will find yourself holding a competitive edge, locally and internationally. All these benefits can be realized by applying for Halal certification through our website: [www.halaloffice.com](http://www.halaloffice.com)

# A Global Journey: Accreditation

Halal Quality Control offers an exclusive variety of obtained accreditation and recognition for its 12+ established offices in Europe.

We guarantee our success by obtaining these accreditations and recognitions from the most sought-after authorities

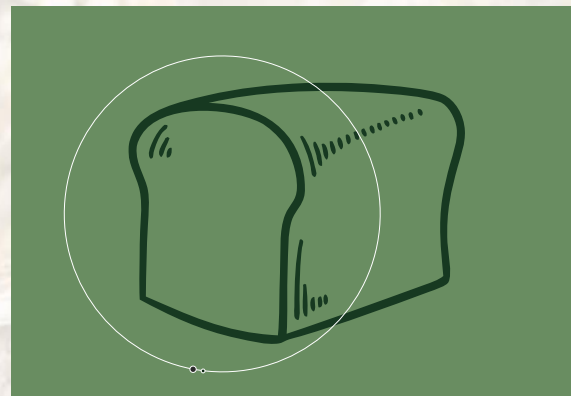

Formally Accredited and Recognized in strategic countries:

- The United Arab Emirates
- The Kingdom of Saudi Arabia
- The Republic of Indonesia
- Malaysia
- Qatar
- Turkey
- The Arabian Peninsula & Middle East
- The African Continent

# The Global Vision of Halal Accreditation

As the Halal Market grows, so do the authorities to keep the market regulated and under control

Halal Accreditation is a solution to maintain high standards and regulations for Halal Certification Bodies

Some countries are already enforcing laws which require all edible products to be Halal certified

Emerging countries in this field are:

- Kingdom of Saudi Arabia
- Republic of Indonesia
- United Arab Emirates
- Egypt
- Qatar
- Turkey
- Pakistan
- Singapore
- Indonesia

# Memberships and Councils

Halal Quality Control is proud to be the European Representatives of the prestigious World Halal Food Council, consisting of dozens of recognizable and accredited Halal Certification Bodies.

Halal Quality Control is also a proud member of the Halal Academy of Europe, bringer Halal certification related training and education to a higher standard by educating both consumers and businesses.

# The Commitment to Service and Trust

The importance of being successful relies not only within accreditation, but it also relies on service and trust

Our network ranges from IT departments to Scholar departments, fulfilling the ability to assist during each step during the certification process

The mission is to respect and accompany each customer equally by offering outstanding service and solutions to gaps

The vision is to create a safe environment for Muslim consumers to be able to consume Halal products all over the world by trusting the certified establishments.

# Local Communication, Global Opportunity

Halal Quality Control understands the importance of language and culture

Our regional branches each have their own department to assist you in your local language

An important element is that we focus on the culture of the local market to meet the needs of our customers

Our network of experts are virtually and physically available and strategically spread across Europe
